Possession of Both RM865 and RC860 Allowed Fall 2020

In Game Management Unit 20E

(Fairbanks) –This fall, hunters will be allowed to possess both RM865 (moose) and RC860 (caribou) registration permits at the same time in Game Management Unit 20E. The restriction, which did not allow hunters to possess both registration permits at the same time, has been removed for the fall 2020 hunting season and will be revisited in future seasons. This measure was implemented to help achieve the fall 2020 Fortymile Caribou Herd harvest objective. All other permit hunt conditions for the RM865 and RC860 registration hunts are unchanged by this announcement.

Hunters should be aware of local ordinances and restrictions aimed at preventing the spread of COVID-19. Please respect any local restrictions, wear face coverings and practice social distancing when in communities in or near the hunt area. Hunters may want to call ahead to find out if local communities have supplies available for sale.
